OUR VALUES

- ❖ Teaching and Encouraging Leadership and Entrepreneurship
- ❖ Partnering with developing countries to improve the lives of its youth and their families
- ❖ Directing human and financial resources directly to the people through families, groups, and organizations
- ❖ Making the lives of those who are a part of the Ariel Foundation International better

CHANGEMAKERS

- ❖ AFI Changemakers is a global movement of young people who passionately believe that their voices matter. We want to see a world where the youth are represented at all levels of decision making- a reflection of the fact that 50% of the world's population are under 35. All young voices are important. Young people are the future leaders and we give them the platform to be heard directly by world leaders.
- ❖ An Ariel Foundation International (AFI) developed programme, we've been hosting summits at the United Nations to give young people the opportunity to make their voices heard.
- ❖ We empower young people to become advocates for the issues that matter to them, from their local communities to the world stage.

The foundation's profound commitment to youth empowerment is well demonstrated within their work, with the ECOSOC status NGO affording young people a platform on the international political stage. Leaders at AFI have successfully delivered a number of powerful speeches, including the acclaimed 2018 "The Power of You" TEDx Talk by Dr King."

-Ziyad Campbell, UK

"Dr. Ariel King is a forward-thinking, broadminded, independent, respectful, intelligent Founder and President of AFI who has exceptional expertise in leadership, coaching and motivation. It is a great chance for associate with the organization. She has always been so supportive mentor whenever I need. She demonstrates a deep knowledge of her field and shares her expertise in a pleasant and comprehensible manner. I follow her projects about children, youth and women with great admiration. I am so lucky to have a scope to collaborate with AFI for a project about children's well-being. We still have lots of things to learn from her and the foundation."
